POST-OFFICE ESPIONAGE - VIOLATION OF LETTER SEALS .- The recent case of the trial of the postmaster at New Orleans for abstracting money from letters has revealed the fact that the secret agents of the post-office have been in the habit of opening letters that are suspected to contain information that may lead to the detestion of offenders against the laws. On the nony of a mail agent and a postmaster's clerk, it appears that the mail agents "carry keys to open mail bags"-that "they have access to them at all times"-that "they open letters and use decoy letters"—that they do the former "frequently"-that in opening these letters they carry them away from the post-office, and if they destroy an envelope or deface a post-mark, they forge another, and that the Department, although it does not specifically approve these proceedings, permits and "wants" and "winks at" them. This practice, however convenient it may be to the officers of the law, who are seeking for depredators on the mails, or other criminals, is not authorized by law, and is one the exercise of which is liable to great abuse, and the policy of permitting which is more than doubtful. In opening the district court of the U. S. at New Orleans lately, Judge McCaleb charged the grand jury on this subject. He charged them, that if any individual should take a letter from the post-office and break it open for the purpose only of detecting a thief, it was a transgression of the post-office law, and the offending party incurred the pains and penalties of the statute and that he could not plead in his defense any authority or commission for him to do it, from any functionary, however high. He also instructed them that the law was equally obligatory upon all persons, and that no officer of the government, however exalted, has any dispensing power over the law, or could authorize a violation of it, or dispense with its provi-

We presume that the Judge has proclaimed what is the law correctly, although some persons may think that the right to violate the privacy of correspondence ought to be sanctioned by law. We believe that more evils would in the end result from the permission of this practice, than all the benefits it might confer by facilitating the bringing to justice of mail-robbers and other depredators on the public. Once establish the rule that private letters may be opened at the will and pleasure of a public functionary under the plea of executing a police regulation, and the correspondence of no citizen would be safe from the prying curiosity and the vile schemes which the knowledge thus obtained may engender. The right of visit to our ships on the sea, which we resist so sternly, is a small affair compared to this wholesale scrutiny into private affairs. On the naked supposition that a postmaster or one of his delegates has stolen letters, the detective police of the President or a Cabinet Minister might open the letters containing money, addressed to anybody; and what security would there be that he would not purloin their contents? He might by this vile agency get possession of the secrets of any family and any individual, and he would Passess the power and mischievous influence of che himself. Every merchant would have his affairs exposed to the inquisitive eyes of a secret, detective police, organized by the Government and endowed with power to break the seals and open his correspondence. The abuses which might follow such a system are obvious. Spies and delators-that pest and bane of Rome and France-would swarm over the republic, and would be the terror and scourge of the innocent and guilty. The tranquillity and happiness of families, the positions of merchants, the fortunes of men, the peace of society, and the law of the land would be held in the hollow of their hands. They could plant a snare under every step, a spy in every house, an informer in every court, and a conspirator in every office, armed with the tremendous power of watching every member of the community, and wreaking their personal vengeance and that of their superiors-clothing themselves with the forms of justice-upon any person who has incurred their suspicion or resentment.

COTTON SEED OIL. - A Mr. Shepherd, of Galveston, Texas, it is announced, is perfecting a valuable invention by which he can produce oil by compressure from cotton seed. One hundred pounds of seed yields from twelve to fifteen pounds of oil, which, when properly clarified. is equal to sweet oil for machinery, and is superior to ordinary lamp oil, while it can be sold at one-half or one-third the cost of either. Another source of income is the cake formed of the seed, when the oil is pressed out. It is d to be valuable for feeding hogs and other farm stock. Cotton seed has heretofore been regarded as entirely useless.

PHILADELPHIA CONVENTION .- A telegraphic dispatch states that fifty-three members have seceded, but gives no particulars.

The general council was in session last! night. The common council passed the resolutions Irom the aldermen to receive the steam fire engine and authorizing the purchase of six horses for the same.

Mr. Beatty offered a resolution making the members of the former council individually responsible for work ordered by them, for which the present council is called on to make appropriations.

Mr. B. made a speech. He is chairman of the finance committee, and he was not willing that last year's appropriations should be shouldered by the present council, without having it generally understood who expended all the money. He alluded to young America, and also to the newspapers, who are evidently a little too progressive to suit his notions.

We think the Judge has no cause for alarm. No one that knows him (and there are few that don't know him) will ever charge him with extravagance.

Mr. Dunlap had been a member of the old council but a few months, and as his share of the deficit would hardly exceed a couple of hundred dollars, he was willing to pay up without being coerced to it by law.

We left Mr. Pennebaker defending the old

ACCIDENT TO THE FRANKFORT TRAIN .- The ocomotive of the Frankfort train ran off the track last evening on the outskirts of the city. No further damage was done than that occasioned by a slight delay, which, however, might have become provoking but for the decision and prompt dispatch of the efficient conductor, Mr. Kane, and the nimble activity of his assistants. The delay was subsequently compensated by the extraordinary run of 24 miles in 50 minutes including seven stops. Truly the Frankfort train and its conductors are invincible.

MISSISSIPPI DEMOCRATIC STATE NOMINA-TIONS .- The Democratic convention which assembled at Jackson on the 5th made the follow-

ing nominations for State officers: For Governor-John J. McRae. Secretary of State-A. B. Dilworth. Auditor-Madison McAfee. Treasurer-Shields L. Hussey. Clerk of Supreme Court-J. T. Sims. Hon. Jeff. Davis was waited upon by a committee appointed by the convention and address-

The river was still rising slowly last evening, with 6 feet 8 inches water in the canal. The rise has enabled all the boats to come over the falls, and the wharf was lined with them. These were the R. M. Patton, T. C. Twichell, Tishomingo, Fanny Bullitt, A. L. Shotwell, Madonna, Rainbow, Wm. Garvin, and Queen of the

The Shotwell reports the Mississippi rising fast from Natchez to Cairo, and the health was good. There were good prospects for corn crops throughout the South.

The Supreme Court of Maine has just decided an interesting case involving the right of school committees to require the reading of the English Bible in schools. In the town of Ellsworth the children of several Roman Catholic parents refuse to comply with the regulation requiring the English Bible to be read, and being excluded therefor, one of the parents brought an action against the committee. The decision of the court, which is very elaborate, was in favor of the defendants.

A private letter from Martinsburg, Va. states that some abolition emissaries succeeded, on Friday evening last, in enticing from the residence of Hon. C. J. Faulkner six of his slaves. After the slaves had been run off, the telegraph wires east and west of Martinsburg were cut to to prevent the transmission of intelligence.

[For the Louisville Bulletin.]
THE INDIGENT STUDENT'S SORROWS. Who lives and longs for fame in vain?

Who for renown each nerve doth strain, And failing, struggles yet again? Who withers beneath Ambition's goad.

And, ardent, seeks the flinty road That leads to glory's bright abode?

What though he track the worlds that fly In flaming splendor through the sky? Neglected, must he droop and die, The Student.

What though the fires of genius glow, Though God unequalled gifts bestow, And Nature's wondrous workings show

All this but keener anguish brings: 'Tis his to feel want's fiery stings,
Unvalued by all living things;
The Student.

And after all what does he gain, But mental toil and mental pain, And ghosts of fears to rack his brain The Student's?

Ill-fated one! he little knows His thoughts—his feelings are his fees; His very virtues but oppose The Student.

His fervid fancy's sportive play, His sensibilities' sweet sway, All—all conspire to lead astray

Despair his aching bosom rends, And through his heart her prickles sends; The Student's.

Oh! who will soothe his breast forlern, By Disappointment's brambles torn! The rich despise—the poor all scorn The Student

His dearest hopes in death are hushed, His highest aspirations crushed, His mind with maddening phrensy flushed The Student's.

THE AMERICAN CONVENTION IN PHILADEL-PHIA-SIXTH DAY.-According to the reports Corpus Christi Valley and Advertiser of the 2d in the Herald and Tribune, the committee ap- says: pointed to make a platform reported in part on the slavery question. There are two reports. The following are the resolutions of the ma-

Resolved, That the American party, having arisen upon the ruins and in spite of the opposition of the Whig and Democratic parties, carnot be held in any manner responsible for the obnoxious acts or violated pledges of either; that the systematic agitation of the slavery question by those parties has elevated sectional hostility by those parties has elevated sectional hostility into a positive element of political power, and brought our institutions into peril. It has therefore become the imperative duty of the American party to interpose, for the purpose of giving peace to the country and perpetuity to the Union. That as experience has shown it is impossible to reconcile opinions so extreme as those which separate the disputants, and as there can be no dishonor in submitting to the laws, the National Council has deemed it the best guarantee of common justice and of future best guarantee of common justice and of future peace to abide by and maintain the existing laws upon the subject of slavery, as a final and conclusive settlement of that subject in spirit and in substance.

Resolved, That regarding it the highest duty to avow these opinions upon a subject so important, in distinct and unequivocal terms, it is hereby declared as the sense of the National Council that Congress possesses no power under the Constitution to legislate upon the subject of slavery in the States, or to exclude any State from admission into the Union because her constitution does or does not recognize the inconstitution does or does not recognize the in-sitution of slavery as a part of her social system; and expressly pretermitting any expressions of opinion upon the power of Congress to establish or prohibit slavery in any Territory. It is the sense of this National Council that Congress ought not to legislate upon the subject of slavery within the Territories of the United States, and that any interference of Congress with slavery as it exists in the District of Columbia would be a violation of the spirit and intention of the compact by which the State of Maryland ceded the District to the United States, and a breach of the national faith.

The Tribune's correspondent says the minority presented the following resolution:

Resolved, That the repeal of the Missouri compromise was an infraction of the plighted faith of the nation, and that it should be restored, and if efforts to that end shall fail, Congress should refuse to admit any State tolerating slavery which shall be formed out of any portion of the territory from which that institution was excluded by that compromise.

The minority report was signed by the folowing members of the committee: William F. Johnston, Penn.; A. D. Sperry, Conn.; Thomas H. Ford, Ohio; Anthony Colby, New Hampshire; John S. Sayward, Maine; John W. Foster, Mass.; Nathaniel Green, Rhode Island; Joter, Mass.; Nathaniel Green, Rhode Island; Joseph H. Barret, Vt.; Schuyler Colfax, Indiana; D. E. Wood, Wisconsin; J. Cogshall, Michigan; William Phelps, Illinois; twelve in all; also, by Richard Clement, Delaware, and C. D. Deshier, New Jersey, as to the first clause. New York alone of the free States went for the majority report. Jowa was not represented. Minnesota report. Iowa was not represented. Minnesota Territory went with New York, as also the District of Columbia, and these with the united South carried the majority report in commit-

Governor Gardner made a boisterous speech protesting against the resolutions of the majori-

AFFRAY. -On Monday a free negro was shot by the mate of the steamer S F. J. Trabue. which boat was lying at Hickman. The negro had been steward on the Trabue and been dis-

B. Peters, a cooper by trade, and who has relatives in Cincinnati, fell from the wharfboat yesterday morning while intoxicated and was drowned.

A passenger on the Jacob Strader named B. P. Irwin, of Beaver, Pa., was robbed of \$3,500. A negro named John Smuthers was

We find the following in the Buffalo Democracy. It is a little remarkable that we have had no account of the accident from any

Steamboat Explosion at Whitehall.—We have seen a letter dated at Whitehall, June 8, which says: Our town was yesterday thrown into a state of excitement by the blowing up of the steamer Empire, Capt. Geo. Yule, which accident took place about 4 o'clock, P. M., in the basin, in front of Myers & Co.'s.

The steamer was backing up to get hold of a tow of canal boats, when her boiler exploded, tearing everything on the forward part of the boat to atoms. Pieces of her boiler and some other parts of her iron-work were blown up into the street, and her bell landed on top of a pile of lumber in the yard of Davis's steam mill, and her smoke-pipe was blown near to the grist mill and fell into the lake. was blown nearly over

The explosion was terrific, and a more com plete wreck you never saw. Fortunately, no one was seriously hurt. Capt. Yule was blown overboard and landed on a pile of coal on the deck of a canal-boat, some two or three rods from the steamer. His injuries are slight some trifling bruises and an ankle badly sprained is all.

Wm. Collins was in the engine-room, and had

just taken hold of the starting bar when the explosion took place. When he came to his senses, he found himself on what remained of the upper deck, some twenty feet from his starting point. His injuries were slight—some few bruises on the body and a cut on the head.

A great trotting race was run over the Queen City course at Cincinnati on Wednesday. Purse stake \$400; mile heats; best three in five.

IMPORTANT FROM THE RIO GRANDE.-The

The news from Mexico is important and exciting. It appears that orders from Santa Anna were received to arrest and shoot, without certain the contract of the emony, some of the leading citizens of Monte-rey and Lampasas—among them Santiago Vi-douri, late Secretary of State for New Leon, a man of great influence. The existence of these private orders leaked out, and Don Santiago Vidouri dispatched a courier to Lampasas with the news, and when Gen. Manchaca, Santa Anna's emissary, arrived, he was met by two hundred armed citizens and forced to surrender.

His life was spared in consequence of the manly position he assumed, acknowledging that his orders were to shoot some eight of the leading citizens of Lampasas, and that had he the ability the orders of his superiors would be implicitly aboved. He did not set his life as his plicitly obeyed. He did not ask his life, as his superiors would not believe but he had sold the command. This gallant Captain, who is well known by our informant, was alive at last ac-counts, and the probability is his manly bearing will save him.

The news of these transactions soon spread throughout the surrounding country. Juan Suassa had left Lampasas with 200 men, and would

be joined at Ville Aldama, Sabinas, Salinas, etc. by a force equal to 1,000 men.

The whole country is represented as being in arms, and an attempt to take Monterey will be made immediately. The Governor of New Leon, Gen. Cordova, had fled to the interior. The Bishop of Monterey, who vis ted all the fron-tier towns last fall, it is now ascertained was a spy sent by Santa Anna to mark the unfaithful. He has also left, but if taken will be roughly

This movement, or outbreak, is entirely ahead of Carvajal's plans, for al hough the people were preparing for an issue, the urgency of the case has forestalled the matter.

ACCIDENT ON THE CENTRAL RAILROAD .-The Albany Argus of Tuesday says:

The 11 o'clock, A M., train from this city, yesterday met with a most frightful accident when near Whitesboro', a small station a few miles west of Utica. By the fracture of the forward axle of the locomotive, "David Wager," the train being under a high rate of speed at the time, three of the cars were thrown off the track and completely demolished.

Passengers were, says our informant, sent flying out of windows and through the bottom of the cars, but miraculous as it may appear, but one lady sustained injuries, and hers were not of a serious nature. The wreck presented a most sorry sight, the cars being completely a most sory sight, the cars being completely riddled—our informant says "pulverized," and adds: "The passengers, after recovering their first surprise, were equally astonished to think that all were not instantly killed." The escape vas truly most fortunate.

Louisiana .- The Alexandria Republican of the 2d has the following:

Speaking of the arrest of British recruitng officers in Boston, the Journal says:

We understand that the investigations made by the U. S. authorities prove that the business of enlisting recruits for the Crimea has been and is carried on very extensively. In some instances, we hear it stated that recruits who had enlisted under Uncle Sam have been enticed away, and induced to enlist in the service of Queen Victoria. The U.S. officers are on the alert for further offenders.

[Correspondence of the New York Express.]
AMERICAN CONVENTION.

Do. Connecticut. Gov. Johnston, of Penn., has been giving ome trouble, so it is said, but the Pennsylvania delegation have met together and passed certain resolutions for his guidance. It is hoped that they will modify his views, as their representa-

tive on the platform committee. But all the indications to-day are, that "Sam" will split upon the rock of slavery, and thus be knocked to pieces. A few abolitionists threaten to secede—and their secession would be useful but that a few Northern men incapable of ap preciating that state of things, will then proffer a platform of no use South and not maintainable in the North, after such secession. The council is not in working condition and is not likely to be. Many of the materials, perhaps most are of the intractable and indocile order.

The failing of the effort to agree upon what no party ever agreed, or in this country ever can agree, "slavery," is hourly demonstrated. The touching of the subject at all is death to the American Organization, but in spasmodic out-

The stuff the Tribune prints, as from here, would not be creditable even to the Herald, or Police Gazette. The tittle tattle of the barrooms, and grog-shops, and the stories, it is manufacturing, are of the very lowest order of

Though the convention is made up of ultras and extremes on slavery, and is destroying the party by touching the subject in any form—as it is doing—it is also made up of a large majority of upright and capable, though, in the main, theoretical men. They are honest and straightforward generally, and the great damage they are doing to their principles comes only from mixing up irrelevant matters with them.

The platform committee of 31 members met again this morning—when a general palaver took place, on slavery matters—as old as they are uninteresting. Though the convention is made up of ultras

Location of Bounty Land Warrants .- Frequent inquiries are made whether bounty land warrants can be located in Kansas and Nebraska warrants can be located in Kansas and Nebraska Territories. We have ascertained by inquiry that they can only be located on lands subject to private entry, whereas there are none such in the Territories named, and will not be for some time to come; but we understand they will be received in payment for valid pre-emption claims in those Territories on the completion and return of the surveys, or when the claimants are in a condition to prove up their claims, even on settlements made prior to the survey.—Union.

NEWS ITEMS.

Forging Land Warrants .- John W. Boileau. convicted at Philadelphia of forging land warrants, has been sentenced by Judge Kane, of the United States District Court, to three years' imprisonment in the penitentiary.

The Crops .- In this section of the State we have been peculiarly blessed with the largest yield of wheat ever before known. There is no danger of famine even if the corn crop should prove a total failure—of which there is now not the slightest prospect. In north Mississippi, and was a start and west Thronger that it eastern Arkansas, and west Tennessee there is a better prospect for an abundant corn crop than we have had for years. The cotton fields are likewise doing well.—Memphis Whig.

[For the Louisville Bulletin.] TOWN CLOCK.

MESSRS. EDITORS: Please allow me to state, in answer to Mr. Charles Duffield, that the Catholic Ca'hedral could not accept of the clock for which he informs the public a contract has been entered into, even should the offer of it be made. The Cathedral, I am credi-bly informed, is to have a clock independent of whatever other clocks there may be in town, and the source whence this clock is to be deand the source whence this clock is to be de-rived is fixed. The clock will be very supe-rior, will be placed very high up (fifty feet above the openings in the tower as it now stands), and of course will cost the public nothing. How, then, would either public or private utility be enhanced by putting up a smaller clock on an adjoining church, at a cost of two thousand dollars or more to the tax-payers of the city. It is surely all a mistake to suppose that rivalship, or any other improper motive, prompts the inquiry into the expediency or policy of incurring such cost for a clock, which, after being obtained, would be of no use, because superceded by a better one without public cost.

Of course it is only in the light of public cost that I speak of this matter, in that sense being a party interested. With any enterprise apart from what the public may have to bear the expense of, I would not wish to interfere under any circumstances. A TAX PAYER.

A GREAT IMPROVEMENT IN CAPSTAN POW-ER!—We went down to the business wharf yes-terday, says the Pittsburg Dispatch, to examine a new plan, the invention of Capt. J. McMillan, a new plan, the invention of Capt. J. McMillan, of the steamer Silver Wave, for applying the steam power of the freight hoisting engine to the capstan, so as to lift the boat off a bar by her own power. The plan proves perfectly successful—Capt. McMillan feels confident he could fairly haul his boat up a plane with it; it will lift a weight of four hundred tons; two men, in one hour, can do with it the labor of more than twenty in six on the old plan; it works steadily, regularly, and smoothly, without lesk steadily, regularly, and smoothly, without jerk or jar, and apparently without a serious objection, to any feature; yet is so cheap, is so laborsaving, so simple, so naturally suggested, apparently, to any reflecting mechanical genus, that it seems unaccountable that Capt. McMillan should have been left the honor of invention.— The plan is this:

A vertical or upright rod or shaft extends from the bottom of the hold to the cargo wheel shaft: with this it is connected by an iron cogwheel—made to ship and unship at pleasure, so that either capstan or cargo wheel can be work-ed by hand, if desired: in the hold, at the mid-dle bulkhead, a horizontal rod or shaft is connected by cog wheels to the vertical shaft; this horizontal shaft extends in a straight line to the spindle or shaft of the capstans, to which it is also attached by cogs. There is the whole in-vention. The hoisting engine is set in motion by steam; spars set, line thrown over the capstan, &c., as usual, and with one man to pay off the line and one to attend to the derrick and falls, all is ready. If line, spar, ring-belt, cap-stan or derrick fail not, the mighty mass of stamboat and cargo must move, or pulled "to little bits." The best feature of all, perhaps is, that only two men, at most, need be in any place

charged. He had since been threatening the mate and following him with a gun. The negro received four balls from a pistol and died immercieved four balls from a Johns, Newfoundland, which is the only struction to the entrance of the Collins and other large steamers into that port. There are now eighteen feet water on the rock at low tide; but as the Collins steamers draw twenty-three feet of water when loaded, the Telegraph Compa-ny have contracted to reduce the "Merlin Rock" to twenty-seven feet below mean low water.

When this obstacle is removed, it is probable that most of the European steamers will make St. Johns a stopping place, as it lies directly on their route, and about one-third of the distance from New York to Liverpool, so that a steamer from Europe, at St. Johns, Newfoundland, may have her news telegraphed to New York within six days from the date of her departure from Liverpool.

The contract with Messrs. Husted & Kroehl calls for the completion of the work by the first of September next, but judging from the energy and promptness with which this firm has hitherto executed work of this kind, it may be expected that it will be completed by the first of August, by which time the Telegraph Company will be ready to give us the European news in six days.—N. Y. paper.

OHIO AND MISSISSIPPI RAILROAD.—The "fast practice" of a part of the managers of the Ohio Mississippi Railroad, by which they, last week, determined to execute Page & Bacon a note for determined to execute rage & Bacon a note for \$1,158,484 61, payable five days after date, and gave, as security therefor, a deed of trust upon all and singular the property, income, and profits of the said road—with power to sell out, on giving twenty days' notice—was the great topic of conversation yesterday. Many men were astonished at it, while not a few applied harsh epithets to the parties to the scheme. The movement was defended solely on the ground that Page & Bacon would be benefitted by it, movement was derended solerly on the ground that Page & Bacon would be benefited by it, and that as the road must be sold, they might as well profit by it as anybody else. It was also insisted that those who had taken stock in the company, in lieu of the money which they had deposited with Page & Bacon, would be protected by them after they had purchased the road and all their rights in it, but in what manner was not definitely stated. As for the city, with her five hundred thousand dollars, and the county with two hundred thousand dollars, and individual subscribers with their two hundred and thirty thousand dollars, they are to be sold out, lock, stock, and barrel—because, as is alleged, they would not send \$250,000 more "kiting" after that which they had already spent, without having any hand in its expenditure.

St. Louis Republican.

JOY AND CARE-A friendly book for young mothers, by Mrs. L. C. Tuthill. New York: Charles Scribner.

We cheerfully commend this book to the attention of young mothers-it is full of the most friendly advice to them and of useful knowledge, upon the important subject of the management of young children in disease and health. It is an excellent little treatise of its kind. The recipes for suitable food and drinks for children and invalids are worth more than the cost of the book. Mrs. Tuthill deserves many thanks for the excellent manner in which she has prepared the work, and Scribner is entitled to commendation for the style of the mechanical de-

Peeps from a Belfry, or the Parish Sketch-book, by Rev. F. W. Shelton, author of "The Rector of St. Bardolph's," "Salander," "Crystal- to the corner of Market and Fourth by Mike, line." &c.

This gentleman has won an excellent reputation by his former books and as one of the very best of the contributors to the Knickerbocker Magazine. The various articles in this sketchbook exhibit the hand of a master and will well repay perusal. They are entitled: "The Lost Tomb-stone," "Father Boyle," "Golden-Mouthed Tailor," "A Burial among the Mountains," "St. Peter's at Rosendale," "The Square Pen," "The Model Parish," "The Seven Sleepers," "The Child's Funeral." "The Two Neighbors," "The Heart of Adamant."

The Rev. Mr. Shelton is the master of a pure style of English, and embalms his noble thoughts in a rich jewelry of words. No lover of essay writing should permit this work to pass neglected-it is worthy of a place in every literary library and upon every centre table.

Scribner has published it in handsome style. These books may be found at the bookstore of Mr. Crump, Fourth street, near Market.

FIRE.-The slaughtering and packing estab lishment of Godman & Phillips, at Madison, was destroyed by fire on Wednesday night; lard, the same. slaughter-houses, stables-everything was destroyed. The fire was the work of incendiaries, as it was discovered in three places at the same time. The houses will be rebuilt in time for fall operations. The loss is estimated at \$10,-000; insured for \$4,000.

The tunnel on the Lexington and Big Sandy Railroad near Ashland is now open, so that footmen can pass through from one end to the other. Its length is 570 feet through a solid rock. It was commenced on the first day of last October, and the opening made on the night of the 3d inst. This tunnel will need no arching other than the rock itself.

The members of the Christian Church are requested to meet at their room corner of Fourth and Walnut streets, this afternoon at 4 o'clock, preparatory to proceeding to baptismal services in Beargrass creek, at the head of

AN ENGLISH LORD DESTROYING RUSSIAN FORTIFICATIONS AND TOWNS .- The boys when they are young and very verdant have an idea of catching birds by putting salt on their tails, and it is said that in olden time wild ducks were called up from the ponds to be killed. This sort of practice is about to be reproduced on a large scale by one of the wise ones of the English aristocracy. One Lord Dundonald proposes by some hoco-pocus process known only to himself to destroy and blow to the Devil or some where else, all of the Russian part of creation, but more especially Cronstadt and St. Petersburg, and such like places. All this wholesale burg, and such like places. All this wholesale destruction is contracted for at the rate of edly exchanged messages with the station whence it started. The questions and answers £200,000, which is cheap enough in all conscience. This offer was made sometime ago, and as the Johnny Bulls are getting somewhat impatient to know when the work of destruction is to begin, the question has been asked of the Premier, Lord Palmerston, when this grand smash was to come off. His Lordship answers in the most approved style of non-committalism, but leads us to infer that this blowing up business was no go. The following quotation from the Parliamentary proceedings will show the present State of Lord Dundonald's explosive

The question had again been asked of Lord Palmerston, in the House of Commons, whether Lord Dundonald's plan for "demolishing every Russian fort in the Baltic before the end of June, at an expense of not over £200,000," was likely to be adopted Lord Palmerston replied:

The plan of Lord Dundonald was referred in the course of last summer and autumn to a commission of military and scientific persons, and since that period I have consulted other persons on the subject. Really, as far as I have been able to form an opinion, I must say the difficulties of the plan appear to increase in pro-portion as the details are considered; and I am not prepared to say when I shall be able to give an answer about it.

AN ANECDOTE FROM THE SEAT OF WAR We copy the following from a letter from an officer in the Crimea:

A curious thing occurred yesterday. A sap-per was brought from the trenches with his jaw broken, and the doctor told me there was a piece of it sticking out an inch and a half from his face. The man said it was done by a round shot, which the doctor disbelieved, but the poor fellow insisted and said: "Yes, and it took off the head of the man next me." This was conclusive, and the surgeon proceeded to remove the bone; it came out quite easy, when the docthe bone; it came out quite easy, when the doctor said to the man, whose face appeared to preserve its form pretty well, "Can you move your jaw?" "Oh yes, sir," was the reply. The doctor then put his finger into the man's mouth, and found the teeth were there, and at length assured the soldier that it was no jaw of his that was broken, but that of his headless comrade, which had actually been driven into his face, inflicting a severe but not dangerous wound. Upon this the man's visage, which had been rather lengthened, rounded up most beautifully.

Mr. Ethell, clerk of the Peter Tellon, furnishes us with the rollowing particulars of the sinking of the steamer Fashion: The Fashion sunk at the foot of Three-mile Island by running into the bank in the fog. The boat lies on the Indiana shore, head up stream, and the cabin floor in water on one side. Her chimneys were knocked overboard by the collision and the shape of her bow made in the bank fifteen or twenty feet above the water. Captain Reed had most of the furniture and cabin fixtures out on shore and was basily engaged in saving all that was moveable.

About 20 pair of coal-boats passed over the falls this morning. The sidewalks on Water street are crowded with Pittsburg coalboatmen. Two of them got into a fight about noon. One struck the other, named Mike, several times with a slung-shot. Mike then clinched his assailant, who took to his heels, minus his coat-tail and the largest part of his shirt. He was pursued pistol in hand.

Presentation of Plate.—The plate which the General Assembly of Rhode Island, at its last January session, voted to Commodore Perry for his services to the Japan expedition, was presented to him by Gov. Hoppen, on Thursday, in the Representatives' Hall. There is but one piece of plate, a salver. It is said to be the most beautiful piece of work ever made in the United States.

Guinea Fowls and Rats .- A correspondent of the Prairie Farmer, who was much annoyed by rats, tried shooting, poisoning, and everything he could think of, but they defied the whole cat-egory. He then procured several guinea fowls, and, for over two years past, has neither seen nor heard a rat about his premises.

The Sultan of Turkey has bestowed or Dr. Chas. T. Jackson, of Boston, the inventor of the ether-chloroform, the Imperial Decoration of the Meijdieh of the 5th class (chevelier) as a testimonial of merit to the discoverer of

Singular Phase of a Divorce Case.—Several weeks since, the wife of one Golderman, a tailor, petitioned the Supreme Court that her husband should advance the necessary sum to pay the preliminary expenses of a suit which she had commenced against him for divorce, and the judge ordered that he should pay into the court the sum of \$75 within a given time. This morning, Mr. Golderman not having paid up, and the court being satisfied of his ability, he was committed to the Suffolk county jail. Boston Traveler.

We regret to learn that the army worm has made its appearance at several points in this county, and of course is doing much damage. Paris Citizen.

PROGRESS OF THE CANAL WAR IN INDIANA The Evansville Journal of Tuesday says:

Last night a letter was brought down from Gen. Dodd, making a draft on Evansville for fifty men who are immediately to start up to Clay county to join Gen. Dodd's forces. A meeting was at once called by Mayor Hopkins at the court house.

The meeting was largely attended, and a great deal of enthusiasm was manifested. A great many speeches were made, and the requisite number of volunteers was obtained. hour the meeting adjourned, leaving the volunteers preparing their arms to start to Terre Haute this morning.

[Correspondence of the Newark Daily Advertiser.]

GENOA, May 11, 1855 Bonelli's Locomotive Electric Telegraph is at length demonstrated. The problem was re-solved under the patronage of the Sardinian Government on the railway between Turin and Montcalieri-a distance of 6 miles-on the afternoon of the 4th instant, when, for the first were varied and repeated during numerous trips. without a single fault, and the inventor finally announced his complete success to the Minister of Public Works at Turin from a car running at the rate of a mile in two minutes. The ordinary wire-line is thus superseded by this demonstration of the practicability of using the common iron railway track as a conductor of electricity generated by a portable machine.

But this simple and ingenious invention of

Italian genius has a still more important bearing. By means of it, not only may running trains be instantly arrested by communications from the stations, at whatever distance; not only may the central and wayside stationary agents hold in-tercourse with them at will, at any point of the route, or in any stage of their progress, but the opposite trains may communicate at any moment, without regard to distance or rapidity of movement, with each other, before or behind. Thus, through communications between them-selves and with the stationary agencies on the route, collisions may be effectually prevented, and warnings be given of obstructions or de rangements on the road. It would seem impossible to desire anything more for the security of passen ers; and you in the United States know better than any other people how to ap-preciate such a security. This plan of convert ng railways into telegraphic lines, and making electro-magnetic machine an attachmen and servant of the locomotive, opens new boundless prospects of usefulness for both, while it serves to indicate that no limits can be assigned to the progress of human skill and sci-

The electric loom recently introduced by Chevalier Bonelli, who is the government director of the Sardinian telegraphs, has already made his name familiar among the friends of the useful arts, and this new fruit of his scientific studies cannot fail to win for it the applause of all who travel by rail, that is to say, of the civilized world. He has lately received the medal of the London Society of Arts and Industry for the application of electricity to Jacquard's loom, which effects a saving of at least 75 per cent. His method of operating with the railway telegraph is not yet made public.

the railway telegraph is not yet made public.

We have intelligence of another eruption of Vesuvius at Naples. It commenced in the afternoon of the 1st inst., and is said to be more remarkable than any other since 1822. The several detonations were heard through the country at a great distance, and the floods of running lava threaten, it is said, the villages of St. Sebastian, Pollena, and Massa di Somma. A gentleman who reached this city this morning speaks of the appearance of the mountain as magnificent beyond description.

A GRAND GIFT CONCERT .- We advertise this morning a grand gift concert, to be given by the Rasche Family at the Mozart Hall to-morrow evening. We are fully aware that heretofore the holders of tickets to such entertainments have had good cause for complaint; and in recommending to our citizens this entertainment, we have informed ourselves fully, and can give the assurance that everything promised by Mr. Rasche will be fulfilled to the letter. Mr. R. is from Alexandria, Va., and is recommended to us by a friend. He has undertaken this tour with his family for the benefit of his health and not as a matter of speculation. He is anxious to return home directly from this city. The prizes he offers can be seen as stated in the ad-

THE OPATE INDIAN WOMAN. - Well, we have seen this creature, and she is not quite as ugly as the picture in the papers represents her. She is about four feet high, walks, dances, talks, and sings. Her hair is like that of a squaw and her face is covered with it. Her mouth protrudes like an ourang-outang, her gums are very thick, and her teeth very small. She dresses in the latest style. She is 22 years old. She drinks no tea or coffee and eats no tutter, but is fond of milk and meats. She is certaily a great curiosity.

Agricultural Division of the Patent Office.— Improved Varieties of Wheat from France.— There have lately been imported from France three varieties of wheat—the Neapolitan white wheat, well suited to the southern States, but too tender for the northern; the Saumur wheat and the early Noe wheat. As the two latter have the property of ripening some days before our common varieties of wheat, if they otherwise succeed in this climate, a great point will be accomplished. A single week gained in the will often secure the crop from injury of the rust or the fly, independent of the advan-tages to be gained in the market. The Saumur wheat is originally from the valleys of Anjou, a southeastern province of France, and is a very remarkable variety of winter wheat. The ear is strong and full, of a reddish color, and very much esteemed by farmers. The straw is very white, higher than that of ordinary wheat, and also larger and sweeter. The Noe wheat was introduced by Mr. De Noe, and is commonly known in the centre of France under the name of blue wheat, and, owing to its hardy and productive nature, it is gradually superseding the Saumur wheat in the high latitudes of Paris, and is much sought after on account of its precocity, and would succeed well as a March wheat if sown

FOR CONSUMPTION, SCROFULA, &c.

THE late film of Rushton, Clark, & Co. being disselved by the Death of W. L. Rushton (the only Rushton ever connected with the firm), THEIR GENUINE COD LIVER OIL will in future be prepared only by HECEMAN, CLARK, & CO., surviving partners and sole successors. It was Mr. CLARK who went to Newfoundland to superintend its manufacture, and he is the only Druggist who ever went from the U. S. for that purpose, and as he will continue his supervision of that branch of our business, we will warrant our Oil, Furs and GENUINE. As success in its use depends upon its purity be particular to see that the signature of HECEMAN, CLARK, & CO., or RUSHTON, CLARK, & CO., is over the cork of each tottle. Hundreds of persons who had been using the Oil of other makers without success have been restored to health by the PURE OIL of OUR MANUFACTURE. Be particular in ordering to specify HEGEMAN, CLARK, & CO., as it was Mr. Clark and not Rushton who has superintended its manufacture; and since Mr. Rushton's death there has been a Rushion's Oil introduced which is not in any way connected with Rushton, Clark, & CO., to oil in the Clark and the Co. Sold by Wilder & Brother, Wilson, Starbird, & Smith, Linger of the control of the Control of the Purpose of the Purpose of the Purpose of the Purpose of the Control of t

meing HEGEMAN, CLARK, & CO.

New Book.

THE Castle Builders, by the author of "Hearts' Ease," "The Heir of Redeliffe," &c. D. Appleton & Co. New York.

A simple but beautiful stery, told in a simple and beautiful manner. The author studiously avoids all fonced and unnatural incidents, and the equally fashionable affectation of extravagant language. It is destined to great pepularity among all classes of renders, for itseketches of life seem to usat once lively, spirited, pathetic, as well as graceful and vivid. All who read it will become interested in its fascinating pages, and close it with the impression that it is a good book, and deserving of universal popularity.
